

Arjun Kumar

Bengaluru, Karnataka, India | arjun.kumar.test@example.com | +91 90000 00000

PROFESSIONAL SUMMARY

Computer Engineering student interested in full stack development and artificial intelligence, with hands-on experience in Java, React, Spring Boot, Python, REST APIs, and MySQL.

EDUCATION

B.E. Computer Science and Engineering

New Horizon College of Engineering, Bengaluru | 2023 – 2027

CGPA: 8.54/10

TECHNICAL SKILLS

Java • React • Spring Boot • Python • REST APIs • MySQL • Git

PROJECTS

Internship Recommendation Platform

Built an AI-powered internship recommendation platform using Sentence-BERT, Spring Boot, React, MySQL, and blockchain technology. Developed REST API integrations and full-stack application components.

Deepfake Detection Platform

Developed an image deepfake detection system using React, Flask, TensorFlow, and MobileNetV2, integrating frontend and backend services through APIs.

EXPERIENCE

Software Development Intern — ABC Technologies

June 2026 – August 2026

Worked on REST APIs, React components, and database integration.

CERTIFICATIONS

- Java Programming Certification
- Python for Data Science Certification

INTERESTS

- Artificial Intelligence
- Full Stack Development
- Blockchain Technology
- Cybersecurity

TARGET INTERNSHIP

AI Software Engineering Intern

Target skills: Java, React, Spring Boot, Python, REST APIs, MySQL

Work mode: Hybrid | Location: Berlin, Germany | Duration: 6 months
