Summary

Aspiring Software Engineer with experience in Java, SQL, and core computer science concepts including Data Structures and Algorithms, Object-Oriented Programming, DBMS, and Operating Systems. Actively developing problem-solving abilities through DSA practice and hands-on projects. Familiar with React and Node.js and interested in backend development, cloud technologies, and scalable software systems. Focused on writing clean, efficient, and maintainable code while continuously learning industry-relevant technologies and contributing to real-world engineering solutions.

Education

New Horizon College of Engineering

Information Science and Engineering

B.E • 8.46 CGPA(5th sem)

Bengaluru, India • 2023-2027

Sri Vijay Vidyalaya Higher Secondary School

Computer Science

12th • 84%

Hosur,Tamil Nadu,India • 2022-2023

Projects

Betterhood – Crowdsourced Civic Issue

3 months

- Developed a crowdsourced civic issue reporting platform that allows users to submit complaints with image proof and automatic GPS location tagging.
- Implemented a backend system to store, categorize, and route complaints to the appropriate municipal authority using Node.js and Express.
- Integrated Google Maps API to visualize reported issues and identify location-based hotspots through map markers and density views.
- Built a role-based dashboard for authorities to track complaint status, update resolutions, and notify users in real time using Firebase Cloud Messaging

Fitness and Wellbeing

3 months

- Developed an AI-assisted fitness and wellbeing application that provides personalized workout plans, diet suggestions, and BMI-based health insights.
- Integrated Google Fit API to track real-time health metrics such as steps, calories burned, and daily activity levels.
- Implemented an AI chatbot using Dialogflow/OpenAI APIs to deliver fitness guidance, motivation, and wellness support through natural language interaction.
- Used Firebase Authentication and cloud database to manage secure user login, store health data, and track user progress over time

Skills

Programming:

Java, SQL

Backend:

Node.js (Basics), Spring Boot (Learning)

Core CS:

DSA, OOP, DBMS, Operating Systems

Frontend:

React

Certifications

NPTEL - Cloud Computing

NPTEL – Data Analytics

Languages

English, Tamil, Kannada

Interests

Problem Solving

Playing Cricket

Listening to Music
